## 2A Legislature news

### STATE legislature:

**Hb 4718: (passed in the house)** Amends the law to allow application for a CPL to the county clerk outside the county of residence, unless that clerk does not accept applications from other counties. Previously you could only apply in your county of residence.

**HB 4866:** Clarifies carrying a loaded firearm while in areas of wildlife.

**HB 4957 & HB 5187 & HB 5188:** Clarifies the emergencies Management act to NOT authorize any of the seizure, taking, or confiscation of lawfully possessed firearms or ammunition nor does it ban the sale or purchase of firearms or ammunition.

**HB5066:** Requires any seller of a firearm to deliver a written warning to the purchaser the penalties for failing to store or leave a firearm in a manner required by law. It further defines exactly what the "safe manner" is. It provides punishment for the firearm owner should a minor access the firearm for any reason. If the minor causes injury or death the owner is guilty of a felony. Exemptions are made for farming, employees, parents permission, instruction, and target shooting. If the firearm is secured per this law and is obtained via unlawful entry this law does not apply. An exemption is made for self defense.

**HB 5067: Proposes** "The state of Michigan has exempted the sale of firearm safety devices from the sales and use tax imposed by this state through December 31, 2021."

**Federal:** *(this list doesn't even scratch the surface of the number of anti civil rights bills that have been introduced fortunately most will not make it out of committee).*

**H.R. 1027:** Would allow qualified members of the armed forces who seek to carry concealed while on military installations.

**H.R. 8:** Background checks for all firearms sales private or from FFL.

**H.R. 3929:** Any person convicted of a misdemeanor "hate crime" would be denied his 2<sup>nd</sup> amendment rights.

**H. R. 1961:** ATF Accountability Act of 2021 provides procedures for appealing certain ATF rulings.

**H.R. 1802:** Assault Weapons Ban of 2021: bans all semi-automatic firearms. It specifically defines the term "semi-automatic assault weapon". *(Yet no army uses semi-automatic weapons as their "assault weapon")*

**H.R.1008:** Handgun Trigger Act would require ALL handguns be equipped with a technology that would personalize the handgun preventing anyone but the owner to fire it.

## 2<sup>nd</sup> Amendment news

**Pennsylvania Democrats** have resurrected an old idea to make ammunition manufactures put serial numbers on all bullets. This is possible BUT the probability of the serial numbers surviving is nil. But the object is to stop reloaders from molding their own bullets. If enacted it would effectively shut down all ammo manufacturing while the equipment could be built.

**NY Gov. Cuomo** declares a "gun Violence disaster emergency". The goal is to bankrupt all dealers and manufacturers by allowing law suits against them for any criminals use of their product. The NY attorney general (bought and paid for by a George Soros front group) has stated she looks forward to bring the first lawsuit. So when will the public be able to sue GM, Ford, Chrysler, etc. for drunk drivers??? Better yet when will the citizens of Chicago, NY, LA, etc. be able to sue the mayor for the lack of protection from the murders her defunding the police has caused???

**Czech republic** Passes Constitutional Amendment to self defense with arms. I former communist country sees the benefit of a second amendment just like the American founders....go figure. While the Biden regime wants to eliminate the 2<sup>nd</sup> amendment.

**ACLU and Socialist organizations,** claim the 2<sup>nd</sup> amendment is based on racism. In the latest lie being spread through the main stream propaganda media is that the 2<sup>nd</sup> amendment was included in the bill of rights to keep slavery. Never mind the many many writings of the founders on why they wrote the 2<sup>nd</sup> amendment, these neo-communists know how to "change our history". And they claim the lack of run control is harming the black community, when just the opposite is true because in the large cities like

## 2<sup>nd</sup> Amendment news (continued)

New York and Chicago it is against the law to have a gun to protect yourself from the criminals.

**Insanity Dept.:** Texas State Rep. Terry Meza (D Irving) want to repeal the castle doctrine in TX. She states the homeowner should be required to flee their home if threatened as it will saves lives. She states most criminals do not want to hurt anybody and will just leave with your stuff and leave you alone even if you can't flee. This she states would save countless criminals lives. "In most instances the thief needs the money more than the homeowner does," Meza reasoned. "The homeowner's insurance reimburse his losses. On balance, the transfer of property is likely to lead to a more equitable distribution of wealth. If my bill can help make this transfer a peaceful one so much the better."

### Editorial

- > Los Angles will now have a federal 'Strike Force' to disrupt the illegal flow of guns into the streets of L.A. Wait! Hasn't California with it's repressive gun laws got an "A" rating from the Giffords Law center for gun control? This strike force will target "ghost" guns and gun runners bringing in guns from surrounding states to sell on the L.A. streets. Good luck with that THC induced dream.
- > Pelosi has started a gestapo police force by sending the D.C. capitol police to the states to open local offices. Note these capitol police only report to congress and have no other over site. This effectively creates a secret police force for the democrat communists to harass political opponents. They are exempt from FOIA the freedom of Information Act so they can act in secret without being accountable to the citizens of the United States. Florida's legislature is moving to ban them from the state.
- > Oops! Biden slips and outright states he wants to eliminate 9mm handguns and rifles that can fire multiple rounds, ignoring the supreme court ruling in the Heller case. He has vowed not to let that nasty bill of rights get into the way. He also claimed all crime rates are down, but murder and gun violence are up.....I guess murder is not a crime in his mind. As the Biden regime defunds the police Everytown for Gun safety is sending \$25 million to social organizations to reduce crime. They believe that if law abiding citizens are disarmed the gun violence will stop.....some more THC induced wishful thinking.
- > Now the regime wants to make the lawlessness in the big cities, that see hundreds shot every week, declared a "health emergency".
- > The Chicago Police Superintendent states Shooting victims cause gun violence as they want revenge.
- > Biden's nominee for head of the ATF, David Chipman, has racist remarks in the record. He said he was offended that so many African Americans were put on the promotion list in the department inferring they cheated on the tests. This came from ATF agents he had worked with. Many in the department see him as an unprofessional hot head that hates gun owners....a perfect fit for the Biden regime. He was part of the team of agents that caused the deaths of women and children at the Waco compound under the Clinton regime.
- > The next shoe to drop is the Biden regime will declare the 2<sup>nd</sup> amendment racist and therefore must be repealed.
- > I can only conclude that democrat socialist progressive thinking is a mental disorder.

***God Bless and Save America!***
